

Specifications SERION *easyCSF*

PC

There are no PC performance requirements specified for the use of SERION *easyCSF*. Conventional systems, such as those computers provided for the use of Immunomat by Institut Virion/Serion GmbH, are adequate for the intended use.

Operating System

SERION *easyCSF* is compatible with Windows® 7 and Windows® 10. The application has been validated for Windows 7 and Windows 10 using both German and English (UK) language and country-specific (format) settings.

Monitor

The minimum monitor requirements for the use of SERION *easyCSF* pertain to its resolution. The monitor must have a resolution of at least 1680x1050 (WSXGA+), and should be larger than 21 inches to allow adequate visibility.

Specifications SERION *easyCSF* – CSD

The SERION *easyCSF* software can be extended by a client server database.

All data used at different workstations can be merged in a single database. Data can be shared, updated and safely stored without risk of losing information.

Networks for the Advantage Database Server

Microsoft Windows 2003 or greater

Network Protocols (on the Server)

IPX with NetWare 5 or greater, Windows

IP with NetWare 5 or greater, Windows, and Linux

File Server Processors

Multiple processors supported with NetWare 5 or greater, Windows, and Linux

Client Operating Systems

- Windows 7
- Windows 10

Licensing

The client server database is sold on a per-server basis with user options to provide concurrent users up to the maximum specified (3). Each PC workstation running one or more SERION *easyCSF* applications is considered a user.
